SOFAR (South Fork of the American River) Cohesive Strategy – This is an ambitious ongoing fuel reduction operation between several agencies within the American River Canyon as well as throughout the Sierra to reduce the dead tree build up and lower the fire risk around our cabins. Cal Trans is doing road clearance and the forest service is partnering with PG&E to clear debris near populated areas. PG&E has made a more active effort to make sure that downed trees and debris are removed from our lots. If you have a cleanup issue, contact one of those agencies or myself to resolve those problems.

ENFIA – Eldorado National Forest Interpretive Association – is a volunteer organization partnering with the forest service to provide a variety of experiences for the outdoor enthusiast. To find out more, go to their website at: www.enfia.org
